

The Scanwill MP Hydraulic Pressure Intensifiers in Cylinder Test applications

More Pressure. More Power

The Scanwill MP- intensifiers are used to increase the pressure from an HPU, typically 175 bar to end pressures in the range 350 - 500 bar

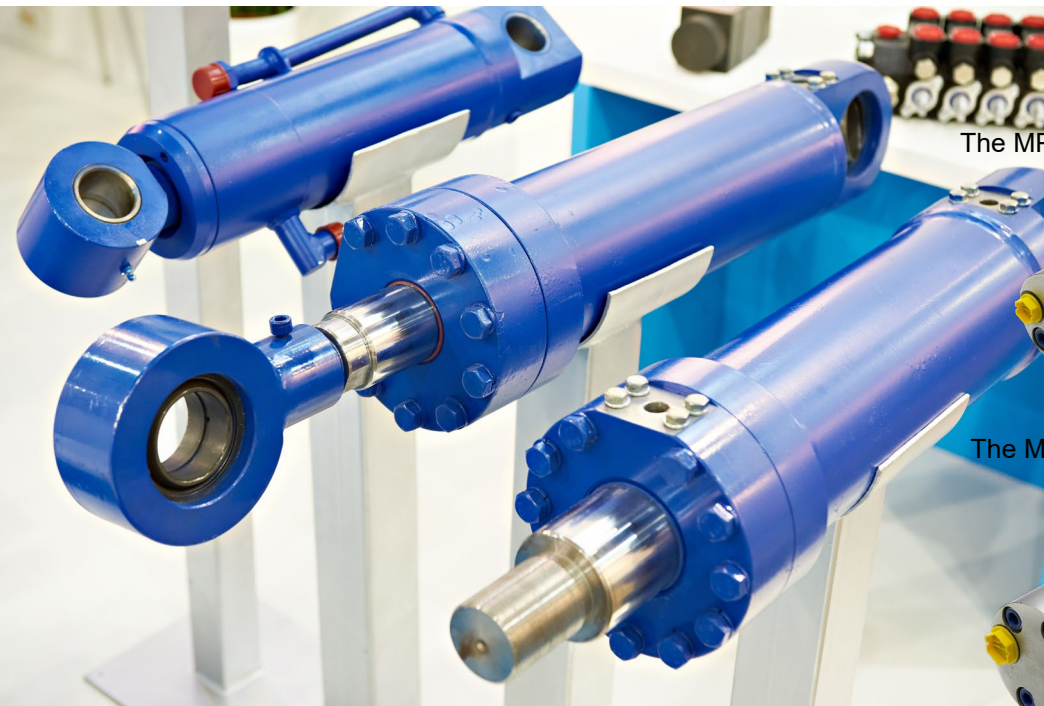

The MP-T intensifier (in-line)

The MP- intensifier (cetop / NG6)

The MP-M intensifier (in-line)

The MP-L intensifier (in-line)
